

 **CONDOR ELITE®**

2024 PRODUCTS CATALOG

A tactical operator in a dark environment, wearing a helmet and tactical gear. A patch on the operator's gear features the Condor Elite logo, which includes a stylized bird and the number 6. The background is dark with some orange sparks or light effects.

CONDOR ELITE COVERED SIX

WHAT IS CONDOR ELITE?

In early 2015, the Condor Team partnered with the subject matter experts from the Southern California based tactical company, Covered 6, to design, test, and evaluate the Condor Elite line of products. Covered 6 accepted the challenge and has been providing input on cutting edge, innovative gear that supports the missions of first responders, military, and security professionals all over the world. The Covered 6 team maintains a network of humble professionals, who draw upon real-world experience obtained in austere environments. These experienced operators, trainers, and consultants have backgrounds in law enforcement, military, private security, and extreme outdoor adventure.

Covered 6 and Condor Elite Team share the same desire to create products that exceed the market standard and still remain available for those who need it most. This mindset and commitment to excellence has formed a collaboration that makes it better....because it has to be.
